The Neuroendocrine Tumor Program at Ochsner Medical

Center – Kenner specializes in the diagnosis and management of all forms of neuroendocrine tumors of the gastroenteropancreatic axis.

- In partnership with Louisiana State University Health Sciences Center, the Neuroendocrine Tumor Program offers multi-disciplinary clinical care for the neuroendocrine patient: medical, surgical and nutritional.
- With more than 50 years of combined experience, the staff of this hospital-based-program works with referring physicians and their patients to help with diagnosis and disease management decisions.
- Physicians and staff members are available 24-hours-a day by phone and E-mail.
- The Neuroendocrine Tumor Program also has access to cutting-edge clinical trials, holds multiple patents in the field of Neuroendocrinology, and has been featured in more than 100 peer reviewed publications.
