333 Mamaroneck Avenue #492 • White Plains, NY 10605 • (888) 722-3132 • (914) 683-1001 • Fax (914) 683-0183

### FIND A DOCTOR

#### Carcinoid Cancer Foundation List

<http://www.carcinoid.org/patient/treatment/find-a-doctor>  
(click on the above link for the complete list of physicians)

Read about how the Carcinoid Cancer Foundation includes physicians on the Find a Doctor list. Physicians who wish to be considered for inclusion on the list should contact the Foundation at [carcinoid@carcinoid.org](mailto:carcinoid@carcinoid.org).

#### **PLEASE NOTE:**

**Nationally and/or internationally recognized carcinoid/neuroendocrine tumor (NET) specialists are indicated by light blue shading in the physician's listing. Multidisciplinary carcinoid/NET centers are also indicated by light blue shading as the final entry in the physician listings for a state.**

#### **How do we define a carcinoid/NET specialist?**

- 10-20 years or more experience in treating carcinoid/NET patients
- Authored or coauthored more than 10 peer review articles on carcinoid/NETs
- Treating 100+ carcinoid/NET patients over time

#### **Carcinoid/NET Friendly Physicians**

It is very difficult for many carcinoid/NETs patients to find a local physician to meet their medical needs on an ongoing basis. In addition to specialists there are doctors from a variety of medical fields that have been identified as:

[www.carcinoid.org](http://www.carcinoid.org)

*If you don't suspect it, you can't detect it.*

## THE CARCINOID CANCER FOUNDATION, INC.

333 Mamaroneck Avenue #492 • White Plains, NY 10605 • (888) 722-3132 • (914) 683-1001 • Fax (914) 683-0183

- Having an interest in diagnosing and treating carcinoid and neuroendocrine tumor patients
- Willing to consult with national and international carcinoid/NET specialists
- Recommended by patients who use them locally and trust them

### Online Discussion Group for Physicians

Are you seeing a local physician who would like to consult with carcinoid/NET specialists? Here's an online discussion group for doctors that you can share with your physician: <http://www.carcinoid.org/physician/other-resources/online-discussion>.

### Disclaimer:

You should be aware that not all the doctors listed here have the same treatment approach. You must make your own inquiries as to whether a particular doctor's approach complements how you want to treat your condition. In that regard, talking to your family doctor, and other carcinoid/NET patients, whether at a local support group or in one of the online groups, may help you make your decision.

Support groups are also an excellent source for information about local doctors who have gained experience in treating carcinoid/NETs.

No endorsement by the Foundation is intended of any of the doctors on this list, nor should an endorsement be inferred or implied.
