

Help Us to Help You: New Survey for the Carcinoid and Neuroendocrine Tumor Community

The **Carcinoid Cancer Foundation** is always looking at ways of improving content and services available to people living with carcinoid cancer and other neuroendocrine tumors and we are working with a pharmaceutical partner, **Ipsen**, to better understand what resources, information, and support you would like to see made available at each stage of your journey.

To that end we'd like to ask for your help. We've created a short questionnaire and would really appreciate it if you could take just a few minutes to complete our survey (it should take no longer than 10 minutes).

The survey will be online through August 26th.

Click here to take the survey: <https://www.surveymonkey.com/r/X8ZKTGZ>

Your answers will greatly help in the development of meaningful content, services, tools, and support so we hope you will help us shape that future.

Please note that your privacy is very important to us and no personally identifiable information will be shared with Ipsen.
