

NET Cancer Day Selfies Awareness Campaign: Time to Diagnosis

Worldwide NET Cancer Awareness Day, November 10, 2014, is less than a month away! The theme for this year's awareness campaign is **"Time to Diagnosis,"** focusing on one of the most common issues with carcinoid and other types of neuroendocrine cancers. The **International Neuroendocrine Cancer Alliance (INCA)** is asking everyone to send in photo selfies in which you hold a placard ([downloadable here](#)) that shows how many years it took you to be diagnosed, your misdiagnosis if any, and your actual diagnosis.

Upload your selfies on the [NET Cancer Day Facebook page](#) or on **Twitter**, with the hashtag **#NETCancerDay**, and on November 10 there will be a streaming of photos from social media using the hashtag #NETCancerDay to form a **Slide Show** on the [NET Cancer Day website](#). [Learn more here.](#)

There is also a **video selfie campaign** focusing on diagnosis. [Read more here.](#) The **deadline** for video selfie submissions has been extended to **November 3.**

Please join us and help raise awareness of NET cancers!!
