

Frankly Speaking About Cancer: Neuroendocrine & Carcinoid Tumors
Tuesday, February 11th, 6:30-8:00 pm

OPEN TO THE PUBLIC:

Yi-Zarn Wang, DDS, PC, MD, FACS, Chairman of the Neuroendocrine Tumor Research & Treatment Center at Sammons Cancer Center shares information to raise awareness among patients & caregivers about diagnoses, treatment options, managing side effects, coping with the psychosocial impact of neuroendocrine & carcinoid tumors, and fostering constructive dialogue with the health care team. Light dinner will be served. CEUs offered for Social Workers and Professional Counselors.

This Event is Open to the Public. Interested in free membership? Please call 214-345-8230 for more information.
